MATTÉO RICARD

STUDENT

About Me

I'm a first-year student in computer science at INP-ENSEEIH in order to become an engineer. From a very young age, I have been passionate about programming and I have done many projects in my spare time.

My second favorite hobby is sport. Indeed I practice it almost daily.

Experience

- Tutor 2020-now**

Toulouse, France

I give math lessons to middle and high school students during the weekend or my holidays. It's an enriching experience. And it's a pleasure to help students to understand the course and improve themselves where they are struggling.

- Internship at Tiria**

L'isle-Jourdain, France

For my two week internship in high school I was in Tiria which is a software publisher that designs solutions adapted to the specificities of companies.

Education

- INP-ENSEEIH 2022-2025**

First Year in Computer Science

INP-ENSEEIH ("Ecole nationale supérieure d'électrotechnique, d'électronique, d'informatique, d'hydraulique et des télécommunication") A top-ranking engineering graduate school based in Toulouse, France.

- Pierre de Fermat 2020-2022**

Prépa MPSI/MP

A two-year intensive preparation course for the competitive entrance exams to the top engineering schools ("les Grandes Ecoles") in France.
